

INTERNATIONAL HOUSE

2017-2018 Construction Notice

Before completing your online application, please be aware that there will be occasional renovations, repairs, painting, and maintenance performed at International House during your stay.

There are currently no major construction projects planned for the 2017-2018 Academic Year. However, with a historic building such as International House which was built in 1929 there is always the possibility that the need for repairs and renovations may arise.

In the event of an unexpected construction project, noise disturbances from this and other maintenance work would be scheduled from 9am to 4pm, Monday through Friday, and occasionally on weekends. Construction teams may arrive as early as 7am to begin preparations for the day's work but will not begin any work that creates significant noise until 9am.

Room repairs requested via International House's online work order system may require personnel to enter your room. Physical Operations staff usually addresses repairs in residential rooms between the hours of 9am and 3pm, but due to the construction work, there may be slight delays in responding to work order requests, although we don't expect these to be significant.

If you have any questions or concerns regarding our maintenance services or building-related concerns, please contact the Admissions team at ihres@berkeley.edu.

If you have a request for special accommodations due to a medical condition that may be negatively affected by this construction, please contact Maribel Guillermo at chabe@berkeley.edu regarding your request. Requests for medical accommodations should be received at least two weeks prior to your scheduled arrival date.
