

INTERNATIONAL HOUSE

Summer 2018 Construction Notice

Before completing your online application, please be aware that there will be ongoing renovations, repairs, painting, and maintenance performed at International House during your stay.

During the 2018 Summer Session housing period, there will be a special project throughout the residential floors to install an enunciator system for use during emergency situations. This will require work crews to enter each individual room for brief periods of time to install the necessary wiring and equipment. Residents will be notified prior to this required room entry whenever possible. The work necessary for this project may create some level of noise, dust, and disruption of regular services.

Noise disturbances from this and other maintenance work may occur from 9am to 6pm, Monday through Friday, and occasionally on weekends. Whenever construction of this type is necessary, workers are scheduled to arrive as early as 7am to begin preparations for the day's work but should not be engaging in any work that will create significant disruption prior to 9am.

In accepting a housing contract for this period, you acknowledge that you understand the effect that this construction work will have on your stay at International House.

Standard room repairs requested via International House's online work order system may require personnel to enter your room. Physical Operations staff usually addresses repairs in residential rooms between the hours of 9am and 3pm.

If you have any questions or concerns regarding the expected construction during this housing period, please contact the Admissions team at ihres@berkeley.edu.

If you have a request for special accommodations due to a medical condition that may be negatively affected by this work, please contact Maribel Guillermo at chabe@berkeley.edu regarding your request. Requests for medical accommodations should be received at least two weeks prior to your scheduled arrival date.
