

DIRECTORY

INTERNATIONAL HOUSE
UNIVERSITY OF CALIFORNIA
BERKELEY

Spring Semester 1949

This copy of the Berkeley International House Directory is particularly significant. Student interest in having a directory was very great and made itself felt even to the point of assisting with certain aspects of its publication. Many of the residents are returning home after enjoying several years of significant living experiences at International House. The directory will serve them when they wish to get in touch with friends, and for students traveling abroad it will be a valuable guide to contacting former associates.

The experience of living at International House is only the initial step in the achievement of the ideals of the House. This directory may make it easier for you to perpetuate the purpose of the House.

When you leave International House, you may maintain and demonstrate your interest through the International House Association. Membership in the Association will give you an opportunity to continue a life-time relationship with students around the world who have shared some of the same experiences.
