

INTERNATIONAL HOUSE DIRECTORY

FALL SEMESTER 1991

International House is a program and residential center for nearly 600 students and scholars from the United States and abroad and an intercultural center serving the Berkeley Campus and local community. This beautiful house was opened in 1930 with the mission of fostering peaceful interaction, understanding, and friendship among the people of all nations, races, and cultures. It was the second such institution in the world, after the International House in New York City. Today, there are over 100 international living and learning centers throughout the world. International House is a self-sustaining, private, non-profit corporation which operates under a license agreement with the Regents of the University of California.

This Directory has been prepared at the suggestion of student residents and is exclusively for their use. No extra copies are available for distribution or sale to the public.
