

INTERNATIONAL HOUSE DIRECTORY

Fall Semester 1995

INTERNATIONAL HOUSE is a residence and program center for international and U.S. students primarily at the graduate level. It was established in 1930 through a generous gift of John D. Rockefeller, Jr., who donated funds to the University for the purchase of land and the erection and furnishing of the building. It was the goal of the founders that students of all nationalities might live under the same roof, and learn to know one another in an environment of mutual understanding and respect. The program during the academic year has four main purposes:

- (1) to assist students and visitors in realizing their academic and personal goals at the University;
- (2) to create a congenial environment where persons from diverse backgrounds and cultures may form friendships, enjoy stimulating conversations, and engage in the exchange of ideas;
- (3) to advance each member's knowledge of other cultures and nations; and
- (4) to promote international understanding and goodwill.

Each semester International House serves about 600 residents and a similar number of non-resident members representing some seventy countries of the world and most of the states in the U.S.A.

This directory has been prepared at the suggestion of student residents and is exclusively for their use. No extra copies are available for distribution or sale to the public.
