> STAFF	PAGE 39

International House's mission is to foster intercultural respect and understanding, lifelong friendships and leadership skills for the promotion of a more tolerant and peaceful world. The House achieves its mission by providing students and scholars from the United States and around the world with an opportunity to live and learn together in a challenging and supportive residential and community-oriented program center. Its resources and activities are designed to stimulate diversity of thought and experience among residents, alumni worldwide and members of the campus and Bay Area communities. International House is an independent, self-supporting, non-profit organization with close ties to the University of California at Berkeley. International House is a residence and program center for international and American students primarily at the graduate level. It was established in 1930 through a generous gift of John D. Rockefeller, Jr., who donated funds to the University for the purchase of land and the erection and furnishing of the building. It was the goal of the founders that students of all nationalities might live under the same roof, and learn to know one another in an environment of mutual understanding and respect. Each semester International House serves about 600 residents, and a similar number of non-resident members, representing some seventy countries of the world and most of the states of the USA. This directory has been prepared at the suggestion of student residents in order to facilitate contact during their stay with us. It is exclusively for their use. No extra copies are available for distribution or sale to the public.
