International House

SPRING SEMESTER

1964

at the
University of California
Berkeley

This directory has been prepared at the suggestion of student residents and is exclusively for their use. Extra copies are therefore not available for distribution or sale to the public.

International House in former years issued only a spring semester directory of home addresses. By adding personal photographs and by advancing the date of publication it is hoped that the interests of the residents will be better served, and that opportunities for friendships and exchange of ideas will be even greater than before.

This edition, which includes residents entering the House in the spring semester, supplements the Fall Directory.

Program Staff
March, 1964

International House on the Berkeley campus was established in 1930 through the generosity of John D. Rockefeller, Jr., who donated funds to the University for the purchase of land and for the erection of a building to be used as a residential and social center for foreign and American students. It was the goal of the founders that students of all nationalities might live together under the same roof, and learn to know one another in an environment of mutual understanding and respect.

This semester International House serves as a host to more than 500 residents and 300 non-resident members representing more than seventy countries of the world and forty states of the U.S.A.
